

CYCLE TOURISM

COMPANY CATALOGUE

Discover, pedal and enjoy.

Discover the natural and cultural treasures of the Region of Valencia by following routes, itineraries and services aimed at ensuring that cyclists enjoy a complete experience. Countless hills overlooking the sea, dense forests, natural parks with extraordinary biodiversity, high mountain peaks and wetlands ringed by sand dunes next to the sea are some of the natural resources that make up the orography and landscapes of our region.

Exploring the Region of Valencia by bicycle is possible thanks to the varied services offered by our companies that specialize in cycle tourism, who have prepared many different experiences that put you in the centre. Slow cycling, family cycling holidays, cycling routes for road bikes or the most extreme BTT, everything is possible in a unique destination. Besides, many of these experiences allow you the opportunity to combine your love of cycling with an endless list of activities such as tasting local wine and food, cultural visits and multi-adventures for all the family

If you want to connect to the wildest nature and discover scenarios that can take you back to the Middle Ages, Castellón is the place for you. It has a profile unlike any other and is home to countless astonishing valleys and high peaks, with remarkable biodiversity. What is more, this territory has an extensive cultural legacy in the form of watchtowers hundreds of years old, archaeological sites, fortified churches and dry-stone wall constructions.

On the other hand, the province of Valencia is the ideal place for families and groups of friends with an interest in seeing the principal city centres and the most authentic secrets of the farmlands of the huerta valenciana. Experiences designed to discover the Albufera, lose yourself in the old town of the City of Valencia or live the greatest adventure of all in the Valley of Cofrentes are some of the most attractive proposals that will seduce you.

Finally, there is the Costa Blanca, an international reference point for cycle tourism, with its endless routes, imposing mountains and extensive beaches with crystal clear waters in a destination famed for its cultural heritage and Mediterranean cooking.

Let yourself be wrapped up by natural landscapes that will surprise you, reach the highest peaks, ride endless roads and discover villages and cities with a unique charm on your own two wheels.

**Activity company****Valencia (Valencia)****VisitAlbufera**

This is the best option for renting bikes and exploring the wetlands of the Nature Park of L'Albufera. Its location by the sea means that the cycle routes start just 10 metres from the office door, at the entrance to the forest of Devesa and the beaches. Of course, it also has the best routes for pleasant bike rides.
